

# School Science Journal

Vol. 4 No. 2 August 2010

## Contents

### Editorial

.....Dongryul Jeon ..... i

### Farewell address from the president

.....Chae Ok Kim ..... iv

### <Research Paper>

#### Development of MBL Experiment to measure the speed of sound in resonance tube

.....Danyung Kim, Yerim Lee, Kyunghee Son, Kyoungdae Kim .....59

#### Development of Teaching-Learning Program and Materials on Science for Improving Creativity - Using the High Speed Camera -

.....Mun Sub Kim, Chan Soo Jee .....65

#### Improvement of Quantitative Detection Method of Reaction Rate Between HCl(aq) and Mg(s) -for Simplicity of Manipulation and Reproducibility-

.....Jongho Baek and Dae Hong Jeong .....74

#### The Effect of a Virtual Reality Experiment Program on the Science Achievement, Science Related Attitude and Scientific Creativity: Centering the Chemistry Unit in the 10th Grade Science Textbook

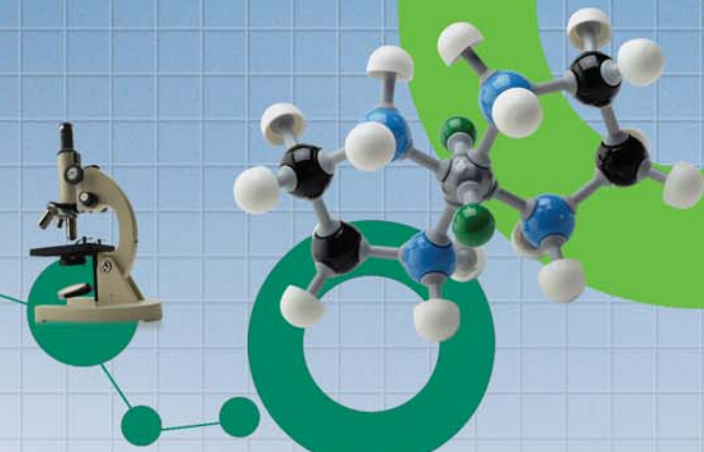

.....Chun Pyo Hong, Yong Yeon Kim .....80

### <Education Resource>

#### Development of teaching materials for enhancing motivation for successful science teaching and learning at elementary school

.....Yong-woo Park .....E-1
