Vol. 5 No. 1 February 2011

Contents

Address from the president

.....Sung-Won Kim i

<Research Paper>

Identification of protein biomarkers in endometrial cancer by using mass-spectrometry and bioinformatics

Junghyun Lee, Eunbee Ko, Eunjung Ko, Yeunhee Kim, Jiyeon Kim, Hakjun Ahn, Jeong-Hyun Oh, and Churl K. Min1

Analysis of the Questioning Styles in the Students' Chemistry text Materials of Education Centers for the Scientifically Gifted Students

.....Min Soo Jung, Miran Chun, Hee K Chae8

Objective Test Allowing Multiple Choice for the Correct Answer with Penalty for Incorrect Choices

.....Chang-Young Lee17

Analysis and Improvement of an Experiment on Diffusion Rate of Gases Introduced in High School Chemistry Textbooks

.....Young Chae Kim, Sukkyoung Seong, Dae Hong Jeong27

Analysis of a magnet falling through a coil connected into a RL circuit

.....Soyeon Kim, Jung Bog Kim35

Measurement and uncertainty analysis of refractive index of water as a function of temperature using home-made precision goniometer

.....Oksu Lee, Kwangmoon Shin, Youngchang Kang, Sungmuk Lee and Jaebong Lee42

<Education Resource>

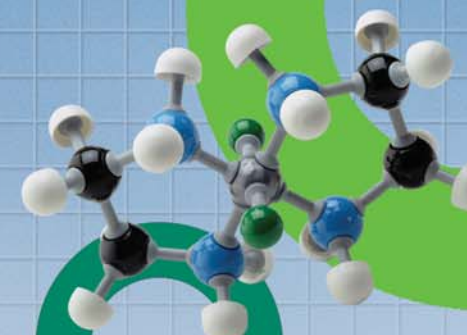

Making Tops of 'Earth and Moon' and 'Solar System'

.....Jong Duk JeongE-1

Study on Possibility of No Energy Loss using Properties of Superconductors

.....Sung Sook LimE-7
